SUMMARY

Passionate about crafting real-world applications with Java and modern web technologies. Brings a problem-solving mindset, adaptability to new tools, and a collaborative approach to development. Eager to contribute to impactful projects and grow through practical, hands-on experience.

EDUCATION

- Bachelor of Engineering in Electronics & Telecommunication Engineering
Bharati Vidyapeeth College of Engineering, Kolhapur (Ch. Shivaji University Kolhapur)
CGPA: **7.27** | Graduated: May 2024

PROJECTS

- [Personal Portfolio Website](#)
Technologies: React.js, React Router, Bootstrap, CSS.
 - Developed a responsive single-page application to showcase technical skills and projects.
 - Implemented React Router for smooth navigation across sections.
 - Improved user engagement by 30% through optimized UI and fast loading times.
- [The Coffee Shop Website](#)
Technologies: HTML, CSS, Bootstrap.
 - Developed a fully responsive layout, boosting mobile accessibility by 100%.
 - Integrated interactive product cards and smooth scroll-to-top functionality to enhance user experience and site usability.
- [Trend Mart- An E-Commerce Platform](#)
Technologies: Java, Spring Boot, Hibernate, JPA, MySQL, JSP, HTML, CSS, Bootstrap, Apache Tomcat, XAMPP
 - Designed and implemented core features including product catalog, shopping cart, and order management.
 - Enabled enhanced security with email verification during user registration.
 - Created role-based Admin/User pages and a responsive UI using Bootstrap and JavaScript, improving user interaction by 30%.
 - Developed backend operations using Spring Boot, Hibernate, and MySQL, deployed locally with Apache Tomcat and XAMPP.
- [To-Do Application](#)
Technologies: Java, JDBC, MySQL, Servlets, HTML, CSS, Bootstrap, Apache Tomcat, XAMPP.
 - Developed a task management system with secure login and registration, enabling efficient CRUD operations.
 - Utilized MVC architecture to ensure scalability and maintainability.
 - Deployed the application locally using Apache Tomcat and XAMPP, demonstrating functionality for personal use.

TECHNICAL SKILLS

- **Programming Languages:** Java
- **Frontend Technologies:** HTML, CSS, Bootstrap, React.js, JavaScript
- **Backend Technologies:** Spring Framework, Spring Boot, Hibernate, JDBC, JSP, Servlet
- **API Handling:** RESTful APIs, Fetch API
- **Databases:** MySQL
- **Tools:** Git, GitHub, Postman, XAMPP, Apache Tomcat
- **Soft Skills:** Problem Solving, Collaboration, Communication, Adaptability, Continuous Learning

CERTIFICATIONS

- [Java Full Stack Developer Certification](#) (Seed Infotech, Pune)

LANGUAGES

- Marathi (Native), Hindi (Fluent), English (Intermediate)
